

Victor Nyambok grew up in Kisumu and studied graphic design at the Buruburu Institute of fine Arts in Nairobi, graduating in 2001.

He realized however, that painting was his first love and took up the brush in between graphic jobs.

His compositions in vibrant sunshine colours fuse elements of graphic and painterly art, creating abstracts of household scenes and fantasy assemblages of imaginary objects.

Victor likes to experiment and often paints on unorthodox surfaces including sandpaper.

He is the proprietor of Studio Victor Nyambok, a gallery that features several Kisumu based artists.
